Career and College Pathways for High School Students
“...to enrich life and maximize potential within the community and workforce...”

— Mission Statement
Eastern Suffolk BOCES
Division of Educational Services
Find Your Future Here

All students upon graduation from High School will have the academic ability to persist and succeed in post-secondary education including corporate training, the military, apprenticeships, certificate programs and degree-bearing programs. Students will have the opportunity to possess:

• earning power in the form of an industry approved entry level certificate
• career ready practices embodied in employability profile
• a defined career pathway
• earned advanced standing and/or dual credit in a post-secondary institution

NON-DISCRIMINATION STATEMENT

Eastern Suffolk BOCES does not discriminate against any employee, student, applicant for employment, or candidate for enrollment on the basis of sex, gender, race, color, religion or creed, age, weight, national origin, marital status, disability, sexual orientation, gender identity or expression, transgender status, military or veteran status, domestic violence victim status, genetic predisposition or carrier status, or any other classification protected by Federal, State, or local law. This policy of nondiscrimination includes: access by students to educational programs, student activities, recruitment, appointment and promotion of employees, salaries, pay, and other benefits. ESBOCES also provides equal access to the Boy Scouts and other designated youth groups. ESBOCES fully complies with all applicable rules and regulations pertaining to civil rights for students and employees (e.g., Title IX of the Education Amendments of 1972, §504 of the Rehabilitation Act of 1973, Titles VI and VII of the Civil Rights Act of 1964, Dignity for All Students Act, §303 of Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990, and the Boy Scouts of America Equal Access Act of 2001). Inquiries regarding the implementation of the above laws should be directed to either of the ESBOCES Civil Rights Compliance Officers at ComplianceOfficers@esboces.org: the Assistant Superintendent for Human Resources, 631-687-3029, or the Associate Superintendent for Educational Services, 631-687-3056, 201 Sunrise Highway, Patchogue, NY 11772. Inquiries may also be addressed to the Office for Civil Rights at the US Department of Education, 32 Old Slip, 26th Floor, New York, NY 10005, 646-428-3800, OCR.NewYork@ed.gov.

When a student completes a program of study in any of the Eastern Long Island Academy of Applied Technology programs, recommendations are made to the home school district to grant an endorsement on the student’s high school diploma. The district then awards endorsements based on that recommendation. Through rigorous coursework, articulations, and real-world experiences, students completing a program at the Eastern Long Island Academy of Applied Technology have the advantage of graduating from high school prepared for both college and the workplace. CTE students:

- Possess knowledge and can apply purposeful and specific technical skills, problem-solving, critical thinking, and are proficient in the use of innovative tools, resources and systems.
- Demonstrate achievement of specific technical skills as reflected in his/her Employability Profile Report.
- Have earned college credits, giving them an extra advantage when entering higher education.
- Experienced internships, pre-apprenticeships, and work-based learning opportunities.
- Engaged in local and national clubs, industry-specific organizations.
- Developed interpersonal and leadership skills that enhance academic, personal, and career development.
- Earned industry-recognized certifications and stackable credentials preparing them for entry-level positions in the workforce.
- Have knowledge of, and competency in, interacting with people of diverse backgrounds.
- Have competency in the use of technology that is aligned with industry standards.
GENERAL STATEMENT ON ADMISSIONS

Academy courses are offered as part of Career and Technical Education for secondary level students. These courses can lead to entry level employment or post-secondary education.

All students have the right of accessibility to programs of instruction available at The Academy and Special Career Education Centers within the Supervisory District. Eleventh and twelfth grade students may be eligible for admission to The Academy pending the outcome of the admissions screening process.

ACADEMY STUDENT REGISTRATION PROCEDURES

The registration process begins with the completion and submission of an Intake Application Form.

1. The Intake Application Form must be completed and signed by the Student, Parent/Guardian, School Nurse, Guidance Counselor and District Superintendent. All Intake Application Forms should be completed neatly in ink. The current grade level of the student should be used on the application.

2. The Intake Application Form must be accompanied by the student’s high school transcript, attendance summary (as of the date of the application) and a summary of discipline. If a student is classified by his/her district CSE, the completed Intake Application Form, along with the student’s high school transcript must also be accompanied by the student’s IEP, psychological report and vocational assessment.

Applications should be sent with accompanying information to:

Eastern Long Island Academy of Applied Technology
Admissions Department
Instructional Support Center @ Sequoia
750 Waverly Avenue
Holtsville, New York 11742

APPLICATIONS WILL NOT BE PROCESSED UNTIL ALL REQUIRED INFORMATION IS SUBMITTED BY THE STUDENT’S HIGH SCHOOL.

3. All applications will go through an Admissions Review process to determine appropriate student placement for each application received. The home school district will receive an enrollment confirmation or a second placement option from The Academy. The Academy Admissions Review Committee will be comprised of both Academy Administrators and Guidance Staff.

4. Students attending parochial or private schools need to have their home school district approval on the Intake Application Form as stated in #1 above. Home schooled students should contact their home school district for further information. Students receiving bilingual education services in their home school district will be evaluated by the Admissions Review Committee on a case by case basis.

5. Adult residents of the supervisory district who have graduated high school or are 18 years or older may enroll in a secondary program. An Intake Application Form including a recent High School Transcript must be submitted. Applications must be returned to The Academy Admissions office. Adult Students without a recent transcript may be required to take a reading and math assessment to determine appropriate placement in the program prior to admission into any Academy course.

6. If a parent or District would like to appeal the determination made by the Academy Admissions Review Committee, the parent and/or District may request a meeting with the program’s Principal to review the Committee’s findings.

For further information, please contact one of The Academy Guidance offices:

Gary D. Bixhorn Technical Center     (631) 286-6516
Edward J. Milliken Technical Center (631) 244-5815
Harry B. Ward Technical Center       (631) 208-2038
COURSE CREDIT

It is recommended that four (4) units of graduation credit be awarded for each student who successfully completes a course (or clusters of a course) of study in The Academy that spans one school year. In addition, integrated into all first year programs will be the Career and Financial Management (CFM) curriculum. Therefore, it is recommended that all first year students who successfully complete their course work receive one (1) additional credit for CFM. A student who successfully completes a two-year program can be awarded up to nine (9) graduation credits: five (5) for the first year and four (4) for the second year. Students may be awarded two (2) units of graduation credit for successful completion of a course (or clusters of a course) organized on a single semester basis. In addition, students may be awarded a half (1/2) unit of graduation credit for the successful completion of CFM for a single semester.

ACADEMIC CREDIT FOR THE ACADEMY PROGRAM

Many of our programs have been approved for academic credit in English, Mathematics, Science, Social Studies, Art and Health by the State Education Department as part of the CTE approval process. A student can only receive credit upon approval by their District Superintendent or designee, upon successful completion of the The Academy program. To fulfill these requirements, each academic course has been developed to ensure that student activities are based on reinforcing the New York State learning standards.

TECHNICAL ENDORSEMENT

- Completion of all high school course graduation requirements
- Successful completion of Career and Financial Management
- Completion of all required Regents examinations
- Completion of The Academy program
- Pass the State-approved Technical Assessment for the program

STUDENT ADVANTAGES FOR COMPLETING A PROGRAM AT THE ACADEMY

- Opportunity to study and succeed in a challenging program, which meets both academic and current business/industry standards.
- Opportunity to study within contextualized settings that relate to areas of personal interest.
- Earning a Career and Technical endorsement increases the value of the high school diploma.
- Documentation of successful work-based experiences through the work-skills employability profile.
- Opportunity to earn certifications pertaining to The Academy program.

REPORTS TO DISTRICTS
District Rosters
Rosters are issued several times during the school year to District Contact Personnel to permit component districts and The Academy to reconcile enrollment rosters. Prior to the closing of school in June, the District Roster for the ensuing school year is sent to District Contact Personnel from The Academy’s Admissions Office.

Daily/Weekly Attendance Reports
Designated personnel at each district receive weekly copies of our attendance reports. The report contains: daily absences, building assignment, current status (add, withdrawn) and cumulative absence record.

Quarterly Grade Report
These are prepared for each student and made available via the Parent Portal. A comprehensive report listing student grade information is sent to each District.

Cumulative Transcript
Upon District request, a cumulative transcript (unofficial) will be issued for each student at the conclusion of the school year.

Employability Profile
This is prepared and issued along with the Certificate of Completion to each student who successfully completes program requirements.

DISTRICT CONTACT MEETINGS
All District Contact Personnel for secondary programs are invited to meet three times a year with Academy staff to learn about new program offerings, changes in policies and to discuss common concerns. In addition, each fall, a New Counselors’ Workshop is offered to familiarize first-time counselors with the The Academy's policies and procedures.

SCHOOL ORGANIZATIONS
SkillsUSA
SkillsUSA is a national student organization designed to provide opportunities to develop excellence in skills and leadership. SkillsUSA offers co-curricular activities to enhance the training and education experiences of students at regional, state, national and international competitions.

National Technical Honor Society (NTHS)
Each Technical Center sponsors a chapter of the NTHS. Students who exhibit outstanding academic excellence (90% or above), outstanding attendance and good citizenship within the chosen Academy program qualify for possible nomination. References to attendance will be modified for the 2021-22 school year to reference expectations of participation, mastery of skills and concepts learned. We request that students stay home if they are not healthy and well. We will not require attendance that jeopardizes the wellness of our students and staff. Students will be required to attest to health screening questions and all students will be required to wear face coverings and socially distance when possible.
ADVANCED COLLEGE STANDING AGREEMENTS
EASTERN LONG ISLAND ACADEMY OF APPLIED TECHNOLOGY

The following colleges offer college credit or waivers for students successfully completing any of the following Academy programs and who meet the criteria required by each college. Please contact Academy guidance counselors for the most recent listing of Advanced Standing Agreements.

A Guide for Students and Parents
About the Dual Enrollment Program

The Eastern Long Island Academy of Applied Technology offers high school students the opportunity to earn college credit while attending select CTE programs.

Through the Dual Enrollment Program, courses are taught at the Academy Technical Center by our college-approved teachers. These classes have the same curriculum and requirements as those offered on the college campus. Students who successfully complete the class earn credits that count toward high school graduation as well as college credit for the course. These college credits can be applied at the college or transferred to another college or university.*

Advantages of Dual Enrollment

- Students who participate in a Dual Enrollment Program are more likely to graduate from high school, enroll in college, earn higher grade-point averages and complete college degrees.
- Dual Enrollment courses bear the same quality and quantity of credits as courses offered on campus but at 1/3 the cost of tuition.
- Dual Enrollment students receive grades and feedback throughout the course, thus eliminating high-stakes, end-of-the-year testing.
- Dual Enrollment courses taken in high school may fulfill college degree requirements, serve as electives, or fulfill prerequisite requirements. This may allow students to graduate earlier or earn credits toward additional concentrations, minors or majors.
- Dual Enrollment courses show colleges that you are a motivated student who has pursued challenging opportunities.
- Dual Enrollment courses help students explore careers. Students who are undecided in their career interests can benefit by the additional research and rigor provided in a Dual Enrollment course.

Which Academy courses are offered for Dual Enrollment?

As of the Fall of 2021, we have Dual Enrollment offerings for the following courses:

<table>
<thead>
<tr>
<th>Academy Course</th>
<th>College</th>

</tr>
<tr>
<td>Suffolk County Community College</td>
<td>$171 for 3 credits</td>
</tr>
</tbody>
</table>

When can I register?

Please see your Academy School Counselor for registration deadlines.

Grades and Course Information

The college final grade will be calculated according to the standard set by the college, and the high school grade will be calculated according to the high school standard. The grading standard for each course is outlined on a Course Information Sheet (your Academy teacher can provide one to you). Some Dual Enrollment courses require an additional project or exam and / or may not accept extra credit and late work. In cases such as these, your final Academy grade might be different than your final college grade.

At the end of the course, you will receive a grade report from the college at which you are enrolled. This is the grade that will be part of your official college transcript.

*TRANSFER STATEMENT: While most colleges accept college credits when a grade of C or higher is earned, we cannot guarantee that all credits will be accepted because each college sets its own transfer policy. If you are planning to attend a college other than the college affiliated with our CTE program, we recommend you check the transfer policy of that college before enrolling in our courses.

Questions? Please see your Academy School Counselor for additional details.
CAREER AND TECHNICAL EDUCATION ADMINISTRATIVE PERSONNEL
2022-23

David Wicks, District Superintendent
Julie Davis Lutz, Ph.D., Chief Operating Officer
Claudy Damus-Makelele, Associate Superintendent for Educational Services
Leah Arnold, Director for Career, Technical and Adult Education
Barbara Egloff, Divisional Administrator for Career, Technical and Adult Education
Robert Van Brunt, Program Administrator for Career, Technical and Adult Education
Emily Puccio, Program Administrator for Career, Technical and Adult Education
Andrea Pekar, Program Administrator for Health Sciences/CTE

GARY D. BIXHORN TECHNICAL CENTER / 350 Martha Avenue, Bellport, NY 11713
Nicole Zergebel, Principal
Chris D’Ambrosio, Assistant Principal

EDWARD J. MILLIKEN TECHNICAL CENTER / 375 Locust Avenue, Oakdale, NY 11769
Jennifer Martino, Principal
Richard Romito, Assistant Principal

HARRY B. WARD TECHNICAL CENTER / 970 North Griffing Avenue, Riverhead, NY 11901
Marie Davis, Principal
Luke Ferland, Assistant Principal
EASTERN LONG ISLAND ACADEMY OF APPLIED TECHNOLOGY PROGRAM DESCRIPTION

Academy programs are conducted at the Gary D. Bixhorn Technical Center, Edward J. Milliken Technical Center and Harry B. Ward Technical Center. Many course offerings can be taken as one and/or two-year programs.

CALENDAR

The District Superintendent’s recommended school calendar will be followed. The secondary class schedules for the three centers are as follows:

• Gary D. Bixhorn Technical Center and Edward J. Milliken Technical Center
  The morning session will begin at 7:45 a.m. and end at 10:15 a.m. (2 hours 30 minutes of instruction)
  The afternoon session will begin at 12:00 noon and end at 2:30 p.m. (2 hours 30 minutes of instruction)

• Harry B. Ward Technical Center
  The morning session will begin at 7:55 a.m. and end at 10:25 a.m. (2 hours 30 minutes of instruction)
  The afternoon session will begin at 11:55 a.m. and end at 2:25 p.m. (2 hours 30 minutes of instruction)

POLICY ON ATTENDANCE

References to attendance will be modified for the 2021-22 school year to reference expectations of participation, mastery of skills and concepts learned. We request that students stay home if they are not healthy and well. We will not require attendance that jeopardizes the wellness of our students and staff. Students will be required to attest to health screening questions and all students will be required to wear face coverings and socially distance when possible.

Attendance Guidelines

1. Students will be advised of the attendance policies as stated in the student handbook.
2. Parent/guardian will be contacted regarding excessive absences.
3. Component school districts will be provided with a weekly attendance report by Admissions.
CERTIFICATE OF RECOGNITION

In order to receive a Certificate of Recognition, students must receive a final grade of 65% or above (70% or above for health related programs). References to attendance will be modified for the 2021-22 school year to reference expectations of participation, mastery of skills and concepts learned. We request that students stay home if they are not healthy and well. We will not require attendance that jeopardizes the wellness of our students and staff. Students will be required to attest to health screening questions and all students will be required to wear face coverings and socially distance when possible.

The table below indicates the criteria for students to qualify for Certificates of Mastery and High Honors:

<table>
<thead>
<tr>

Other Grades

LE (Late Entry):

Any student that has entered a program after the first week in October and does not have sufficient grades for the first marking period may be given an LE. Please note the student’s final average will be hand-tended by the district, averaging the second, third and fourth quarter grades.

I (Incomplete):

Students that have been attending and have not completed the quarter’s required work may be given an Incomplete. This student will have an additional 10 school days to complete the work. At that time the teacher will be asked to submit a quarter grade. An Incomplete will not be given for the fourth quarter.

NG (No Grade):

Students that have been absent for a documented reason, i.e. hospitalization, severe illness or injury, pregnancy, etc. may be given an NG. The student’s final average must be hand-tended by the district.

Anecdotal remarks indicate to the home school district and the parents the need for supportive assistance to increase the level of student achievement and/or acceptable behavioral performance. Commendations for noteworthy accomplishments are also indicated.
MIDDLE STATES ACCREDITATION OF COLLEGES AND SCHOOLS
The Academy has received accreditation from the Middle States Association of Colleges and Schools (MSA). MSA was established in 1887 and is a non-governmental, non-profit, peer administered organization that provides leadership in school improvement for its member schools.

Each Technical Center underwent a comprehensive Accreditation for Growth Self-Study and has developed appropriate program mission statements as well as academic and behavioral student performance objectives. Action plans were developed and implemented by each site to help in meeting the objectives identified and to assist in overall school improvement plans. Middle States Validation Teams completed evaluations of The Academy's programs.

For additional information about our Accreditation for Growth process, please contact the building principal at their respective sites.

In order to receive this recognition, each program was reviewed by a team of experts from the Technical Assistance Center to ensure that we met their standards in the following areas:

- Strong curriculum that aligns with state, industry and academic standards and, at the secondary-level, preparing students for today's business and industry environments and post-secondary opportunities.
- Project-based and contextualized learning and related instructional approaches providing opportunities for students to apply technical, academic and employability knowledge and skills to real-life situations. Instruction is differentiated and personalized to meet the diverse learning styles, needs and interests of students. The learning experiences are organized and facilitated in a manner that creates a positive classroom culture.
- Multiple forms of assessment, including performance assessment, to evaluate student attainment of technical, academic and employability knowledge and skills which are aligned to program standards and curriculum and are appropriate to students’ level of knowledge and skill attainment. Assessments are valid and reliable, and data from assessments is used for continuous program improvement.
- Diverse range of partners including employers, industry representatives, community/workforce/economic development agencies, and education stakeholders. The program conducts outreach activities to develop partnerships.
- Opportunities for students to obtain articulation with two- or four-year institutions to prepare students for the transition from high school to post-secondary study in a career area — they provide direct benefits to students such as dual credits, college credits, advanced standing or reduced tuition.
- Work-Based Learning (WBL) experiences providing students with opportunities to apply knowledge and skills learned in the classroom to real-world situations. These experiences engage local businesses and industry partners and increase the relevancy of classroom instruction.
- Facilitates and equipment in the CTE program reflecting current workplace practices, support and align to curriculum standards, and meet appropriate federal, state, and local safety standards.

We look forward to acknowledging staff, more programs, and buildings in the near future.

Congratulations to the Staff at WTC on a job well done!
Eastern Long Island Academy of Applied Technology

Exploring Your Opportunities
Discover your inner animal lover!

If providing high quality, humane care to animals during all stages of their lives is important to you, consider a career in animal science.

Job opportunities in the field of animal science are surprisingly diverse, including veterinary care, grooming, retail store services, pet-sitting, behavioral training, the pet food industry, humane societies, bio-medical laboratories, marine and theme parks, wildlife refuges and zoos.

This program will provide you with hands-on experience with animals at the Cornell Cooperative Extension as well as a local horse farm.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: **ANIMAL SCIENCE**

COURSE DESCRIPTION
Animal Science is designed to prepare students who are pursuing animal related careers and can be used as a college preparatory course for those interested in furthering their education in applied sciences.

This course provides students with the opportunity to work with a wide variety of animals. Classroom environment simulates procedures performed in veterinary hospitals, grooming shops and kennel facilities. Students are also provided with hands-on experience with farm animals at Cornell Cooperative Extension and at local horse farms.

COURSE CONTENT – First Year
- Comparative Anatomy and Physiology
- Introduction to Grooming
- Handling and Restraining Techniques
- Animal Husbandry
- Animal Behavior
- Parasitology
- Diagnostic Testing
- Introduction to Pharmacology

COURSE CONTENT – Second Year
- Equine Science
- Exotic Science
- Advanced Grooming
- Diagnostic Procedures
- Surgical Nursing
- Reproductive Management
- Marine Science

EDUCATIONAL OPPORTUNITIES
Associate and Baccalaureate degrees in the animal health care field

CAREER OPPORTUNITIES
- Zoos and Wildlife Facilities
- Aquariums
- Veterinary Hospitals
- Kennels
- Farms
- Humane Societies and Animal Control Facilities
- Animal Shelters
- Diagnostic Laboratories
- Spay and Neuter Clinics
- Bio-Medical Research Facilities

SUGGESTED SUPPORTIVE COURSES
- Living Environment

ADDITIONAL INFORMATION
- COSTS........................................ Uniforms approximately $30; tools $50-$60
- LENGTH OF COURSE...................... 1 or 2 years

JOIN THE NEW AGE DESIGN PROFESSIONALS!

The art and design field knows no boundaries. Nearly every product around us, from the books we read to the clothes we wear, is influenced by the work of artists and designers. Today’s artist needs to be prepared and skilled in a variety of tools, techniques as well as in design theory. The Art, Design and Visual Communications program provides opportunities with REAL clients and work experience. In this working studio environment, you will become familiar with the tools, techniques and theory needed to succeed. Through design projects, collaborative activities with related career classes and actual work experience, students are exposed to all facets of design and a multitude of career paths, allowing them to create a well-rounded portfolio and valuable entry-level employment skills as well as preparation for higher education. Today’s artists are the problem-solvers of tomorrow and the ADVC class is where that successful future begins.

Advanced college/trade school credit is available to qualifying students from the following institutions:

EASTERN LONG ISLAND ACADEMY OF APPLIED TECHNOLOGY
COURSE DESCRIPTION
Through career-related, project-based and hands-on experiences, students enrolled in this creative class will develop a portfolio and foundation skill sets needed to enter various design fields and creative industries. Students will learn the basics of illustration with traditional and digital media, composition, design and color theory, team building and communication skills, as well as industry standard design software programs needed on any designer’s resume. The combination of the skills developed and applied, along with hands-on client work experiences, will enable students to create a portfolio worthy of college acceptance and entry-level work positions. Students also have the opportunity to earn industry recognition and college credit.

COURSE CONTENT
Use of Studio Tools and Equipment
Layout and Composition Fundamentals
Elements and Principles of Design
Color Theory and Application
Typography / Anatomy of Letterforms
Concept Development
Workplace Safety and Health
Professionalism and Work Ethics

Client Work Experience
Character and Team Building
Portfolio Development
Digital Design / Computer Graphics
Digital and Traditional Illustration
Creative Application of Traditional and Digital Media
Project-Based Career Exploration

(2 years = MAXIMUM 2 academic credits)

INDUSTRY CERTIFICATION .................. Adobe Illustrator®
Get ready to change your tune! Here's your opportunity to learn all about studio recording, live concert sound, digital audio production, and electronic music. You'll also become familiar with the skills producers need to be successful in the business end of this exciting industry. Either way, the audio production program is for you!

Learn how to succeed in an industry that continues to change and grow. With our state-of-the-art equipment, you will learn how to take charge of your recording sessions and live music events.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: **AUDIO PRODUCTION**

COURSE DESCRIPTION
Audio Production is designed to give the student exposure to basic audio production techniques. This will be inclusive of live sound reinforcement, multi-track audio recording, as well as electronic instrumentation operation and composition basics. The student will play an active role as audio technician, engineer and producer, learning the fundamentals using industry standard equipment such as audio mixing consoles, microphones, digital tape recorders as well as virtual multi-tracking and editing systems. Instruction will also cover equipment installation and maintenance. Students will write, produce, engineer, mix and master their own projects. These projects include sound reinforcement for theater and musical performance, sound mixing for in-studio television production and post-production and original soundtrack composition for film, television and the music industry.

COURSE CONTENT
Audio Equipment Use
Basic Production Skills
Microphone Technique
Midi Instrumentation and Sequencing
Careers in Audio Engineering and Recording Industry
Advertising
Digital Multi-Track Recording
Voice-Over Technique and Diction
Careers in Broadcasting

EDUCATIONAL OPPORTUNITIES
AAS Broadcast Journalism
BS Journalism, Broadcasting
BFA Communication Arts

CAREER OPPORTUNITIES
Audio Engineer
Producer
Public Relations Specialist
Announcer/Voiceover Artist
Audio Technician
Arranger
Production Manager
Newscaster
Audio Sales and Support Services

SUGGESTED SUPPORTIVE COURSES
English, Public Speaking, Music, Television, Video and Digital Film Production

Get set for a high tech finish!

Come join the booming, high-paying field of auto body repair and car customizing. You will train hands-on as a collision repair and refinishing specialist with today’s brand name products in an exciting, evolving, high-tech environment. This course will prepare you for I-Car Certification. You will also learn what it takes to provide outstanding customer service and the communication skills necessary to interact with other professionals in this high-demand industry.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: AUTO BODY REPAIR AND CAR CUSTOMIZING

COURSE DESCRIPTION
This program gives students the opportunity to learn how to dismantle and reassemble damaged automobile components, straighten metal parts and car frames, straighten dents, use filler compounds, grinding techniques and prepare a car for the refinishing shop. Students will also learn how to select and mix paint according to the latest EPA guidelines, as well as the proper techniques in spray painting. Students will also gain hands-on experience in vehicle customization.

COURSE CONTENT
SP2 Safety Training
Estimating/Billing
Basic Metal Straightening/Repair
Plastic Filler Application
Auto Body Refinishing in a Spray Booth
Removal/Alignment and Replacement of Welded, Bolted and Glued on Applications
MIG Welding/STRSW
Repair of Frame and Uni-Body Construction on EZ Liner
Chief Truescan Live Mapping Laser Measure System and Chief Frame Machine
Body Refinishing
Vehicle Safety Systems (Air Bag and Seat Belt Systems)
Heating, Cooling, Steering and Suspension Systems
Off-Road Customizing
Pinstriping
Electronic Circuit Fundamentals
Battery and Alternator Upgrades
Soldering
Storage Batteries (Testing, Charging and Troubleshooting)
Kicker and Remote Amp Installation and Design

EDUCATIONAL OPPORTUNITIES
Advanced College Standing
Associate Degree or Certificate
Advanced I-Car® Training
Two-Year Technical College
Baccalaureate Degree

CAREER OPPORTUNITIES
Parts Representative
Service Writer
Painters’ Prepper
Manager/Shop Manager
Polisher
Masker
Auto Parts Dismantler/Recycler
Painter/Refinisher
Pinstriper
Heavy Collision Repairer
Rental Car Agency
Body Assembly/Disassembly
Auto Body Material and Supply Representative
Welder/Fabricator
Auto Restoration
Frame Technician
Used and New Car Lot Attendant
Fiberglass Body Repairer
Insurance Adjuster/Estimator
Exterior and Interior Auto Detailer
Off-Road Customizing
Custom Sound System Installer

• Aviation/Professional Pilot Training (BTC)
• Marine/Motorsports Technology (BTC)
Tune up your career in this growing field which offers job opportunities in a wide variety of areas. You will gain the hands-on training you need in computer diagnostics, engine performance, automotive electronics, transmission repair, brakes, suspensions and more. You will also have an opportunity to work alongside automotive service technicians in some of the best dealerships in Suffolk County.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: **AUTOMOTIVE TECHNOLOGY**

**COURSE DESCRIPTION**
This two-year program meets requirements for Automotive Service Excellence (ASE®) Certification and is certified by the National Automotive Technicians Education Foundation (NATEF). This program provides students with theory and practice in the use of tools, special equipment, technical manuals, computerized service equipment, service specifications, diagnosis and methods of repair through teamwork, problem solving and critical thinking skills. Students will be prepared for The National Institute for Auto Service Excellence examination and have the option to be approved by the New York State Department of Motor Vehicles in NY State Inspection. High achieving juniors will have the opportunity to enter the AYES Program, which is a two-year apprentice program, administered through The Academy with local dealerships, similar to cooperative learning.

**COURSE CONTENT**
- Engine Repair
- Automatic Transmission/Transaxle
- Manual Drive Train and Axle
- Suspension and Steering
- Brake Systems
- Electrical/Electronic Systems
- Heating and Air Conditioning
- Engine Performance
- Automatic Transmission
- Transaxle

- INDUSTRY CERTIFICATION.............Automotive Service Excellence (ASE®), MLR & AST, NYS Certified Motor Vehicle Inspector, Snap-On® DMM, SP2®/Safety

**Quote from program graduate –**
"It was amazing. I learned countless useful skills that will help me to better my career and continue my education."
Soar above it all!

You look up into the sky every time you hear an airplane passing! You’ve been thinking about learning to fly for a long time, probably since you were a kid, but you haven’t taken that first step to turn your dream into a reality. Well, now is the time. Our Aviation/Professional Pilot Training program at the Bixhorn Technical Center prepares students to receive their Federal Aviation Administration (FAA) Private Pilot Certificate. Soar above your friends! Learn to fly with The Academy!

“To invent a plane is nothing, to build one is something, to fly is everything.” — Otto Lilienthal

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: AVIATION/PROFESSIONAL PILOT TRAINING

COURSE DESCRIPTION — FIRST YEAR
The students will study aerodynamics, navigation, meteorology, aviation physiology, airplane performance and air traffic control procedures. They will operate actual aircraft as well as flight simulators. All students will be prepared to take the Federal Aviation Administration (FAA) Private Pilot Knowledge Exam (FAA testing procedures apply) and the FAA 3rd Class Medical Exam by the end of the first year.

COURSE DESCRIPTION — SECOND YEAR
Students who have passed the FAA Private Pilot Knowledge Exam and the FAA 3rd Class Medical Exam along with earning at least an 80 in the first year will be eligible to enroll in the second year of the program. Students will have the opportunity to earn a Private Pilot’s Certificate and work with business and local industry in an aviation-related capacity.

COURSE CONTENT
Science of Meteorology
Airport Layout and Design
Radio Communications
Air Traffic Control

Basic Sciences of Pre-Flight (Ground School)
Navigation and Related Mathematics
Airplane Construction
Aerodynamics and Related Services

EDUCATIONAL OPPORTUNITIES
Advanced College and Military Standing

CAREER OPPORTUNITIES
Professional Pilot
Air Traffic Controller and Services
Military Options
Aircraft Dispatcher
Meteorology
Aircraft Avionics Technician

Flight and Ground Instruction
Aircraft Management
Airport Operations
Aeronautical Engineer
Aircraft Mechanic/Repairman

SUGGESTED SUPPORTIVE COURSES
Algebra, Earth Science and Physics

ADDITIONAL INFORMATION
COSTS
First Year:
Approximately $30 for required charts;
Approximately $20 for professional pilot shirt;
FAA Knowledge Exam fee approximately $165
FAA Medical Exam fee approximately $75-$125
Final FAA Practical Flight Test $450
Aircraft Rental approximately $150
Optional summer flight instruction $1,500

LENGTH OF COURSE 2 years
LOCATION Gary D. Bixhorn Technical Center

CTE/ACADEMIC CREDIT 1 year = no academic credit
2 years = 1 credit ELA, 1 credit math and 1 credit science
(2 years = MAXIMUM 3 academic credits)

INDUSTRY CERTIFICATION Federal Aviation Administration Private Pilot

Quote from program graduate – "Great learning experience."
Cut your way to a great career!

In this program, you will learn styling, shear and clipper cutting, rolling and texturing of hair, facial grooming, and shaving techniques. Your training will prepare you for the New York State Barber Practical Examination—required to become a licensed master barber. In addition, you will learn the business and communication skills you need to own and operate your own business. Bring your excitement and enthusiasm to this program and cut your way to a great career.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: BARBERING

COURSE DESCRIPTION
This course is a combination of classroom instruction and laboratory opportunities that will develop academic and professional knowledge as well as skills required for job acquisition, retention and advancement. This program emphasizes specialized training in safety, sanitation, shaving, reception, precision shear and clipper cutting, sales, and can create opportunities for small business ownership.

The curriculum is designed to give an overview of the barbering industry, licensing and the opportunities for professional growth. Students who successfully complete this 500 hour course will be eligible to sit for the New York State Licensing Board Exam. **Students must be at least 17 years of age to take the New York State Barber Practical Examination.**

EDUCATIONAL OPPORTUNITIES
Advanced College Standing
Two-Year Technical College
Associate Degree or Certificate

CAREER OPPORTUNITIES
Master Barber
Barbershop Owner
Barbering Instructor
Platform Artist

SUGGESTED SUPPORTIVE COURSES
Business, Health, Living Environment

ADDITIONAL INFORMATION
COSTS .......................................................... Approximately $500 for complete kit which includes uniform, workbook and all tools required to complete this course and work in a barbershop

LENGTH OF COURSE ......................... 1 year
LOCATION .............................. Gary D. Bixhorn Technical Center
CTE/ACADEMIC CREDIT .......... 1 year = 1 credit ELA or 1 credit science
(1 year = MAXIMUM 1 academic credit)
INDUSTRY CERTIFICATION ............. New York State Licensed Master Barber, BLS

**Quote from program graduate –**
"The Barbering program changed my life. I not only learned skills for my trade, but skills to help me succeed in life. I am forever grateful."

**Human Services/ Appearance Enhancement**
- Cosmetology (MTC, WTC, ICC)
- Barbering (BTC)
- Introduction to Appearance Enhancement (ICC)
- Appearance Enhancement Exploration (IAC)
A good career is built on a solid foundation!

Growth in the service industry has resulted in greater demand for skilled construction workers. Become familiar with the tools used in commercial construction as well as the materials used by builders, including lumber, concrete, drywall, roofing, fasteners and a wide variety of hardware. Over the course of a two-year program, students will tackle numerous hands-on projects, including full construction of a residential building. Qualifying students will have the opportunity to earn enhanced eligibility toward a five-year apprenticeship with the Empire State Regional Council of Carpenters Apprenticeship Program.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: **CARPENTRY/RESIDENTIAL CONSTRUCTION AND HOME IMPROVEMENT**

**COURSE DESCRIPTION**
The carpentry program is a combination of hands-on skill development and technical training in order to prepare students for entry-level employment or higher in residential construction, home improvements and related fields. Students will actively build and/or renovate a three bedroom, Energy Star® rated ranch on-site using Brookhaven Town and Energy Star® building codes. Both renovation and alteration of existing residential structures are taught, and students evaluate their own work and keep an active portfolio as well as a notebook.

Students will take the OSHA-10 course in their first year of study with the goal of obtaining the OSHA-10 card. Second-year students will take the OSHA-30 course as well.

**COURSE CONTENT**
- Floor Framing and Sub Flooring
- Drywall and Interior Trim to Include Spackle and Tape (stilt work)
- Wall Framing
- Soffits and Fascias
- Roof Framing, Skylights
- Replacing Windows and Doors
- Sheathing, Siding and Roofing
- Scaffolds and Ladder Safety
- Re-Siding and Re-Roofing
- Door and Window Installation
- Building Trusses

**EDUCATIONAL OPPORTUNITIES**
- Advanced College Standing
  - Articulation Agreement with Carpenter’s Union
- Associate Degree/Construction
  - Baccalaureate Degree/Architecture

**CAREER OPPORTUNITIES**
- Carpenter, Apprentice, Helper
  - Dock Builder
  - Taper/Spackler
- Lumber Yard Person
  - Mill Person
  - Estimator
- Roofer
  - Flooring Installer
  - Drywall Installer
- Siding Mechanic
  - Framer
  - Landscaper/Carpenter
- Truss Fabricator
  - Exterior/Interior Trimmer
  - Home Improvement Contractor

**ADDITIONAL INFORMATION**
- **LENGTH OF COURSE**: 2 years
- **LOCATION**: Gary D. Bixhorn Technical Center, Southampton High School (a.m. only)
- **CTE/ACADEMIC CREDIT**: 1 year = no academic credit
  - 2 years = 1 credit ELA and 1 credit math
  - 2 years = 1MAXIMUM 2 academic credits
- **INDUSTRY CERTIFICATION**: National Center for Construction Education and Research (NCCER)
  - National Registry, OSHA-10, OSHA-30

---

**Architecture and Construction**
- Heating, Ventilation and Air Conditioning (HVAC) (MTC, WTC)
- Introduction to HVAC (ICC)
- Carpentry, Residential Construction and Home Improvement (BTC)
- Facilities Maintenance (ICC)
- Plumbing and Heating (BTC)
- Electrical Trade and Alternative Energy (BTC, MTC, WTC)
- Carpentry (ICC, WTC, Southampton HS)
- Carpentry Exploration (IAC)

**Quote from program graduate** –
"You learn how it will be in the real world."
Welcome to today’s health-conscious world! People are more interested than ever in losing weight, toning muscle, improving diet and living healthier lives. If fitness is your passion and you enjoy working with people, a career in personal training may be perfect for you. In this exciting and expanding field, you will have an opportunity to design weight-training and nutritional programs, help people gain greater self-esteem and see the results of your skills “take shape” every day. This course will offer you the opportunity to earn your National Personal Trainer certification through International Sports and Science Association (ISSA) making you fit for a great new career!

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: **CERTIFIED PERSONAL TRAINER**

**COURSE DESCRIPTION**
This physical course includes anatomy, kinesiology, injury prevention, supplementation and nutrition, and all aspects of cardio and strength training and more. A world-renowned staff of researchers, scientists, sports medicine specialists and world champion athletes created the certification program that this course follows. The course is specifically designed to bridge the gap between clinical exercise, related course work and the practical application of sound health and fitness programming. Students will have an opportunity to earn a nationally-recognized certification from the International Sports Sciences Association upon successful completion of the course.

The second year will infuse the latest technologies from the healthcare and fitness industries into the Certified Personal Trainer curriculum. Students then have the opportunity to provide a supervised fitness program designed around a medical condition. Students will have the opportunity to earn a certification in Fitness/Exercise Therapy from the International Sports Sciences Association upon successful completion of the second year of this course.

**COURSE CONTENT – First Year**
Scientific Foundations of Physical Activity and Fitness  
Nutrition, Body Composition and Weight Management  
Components of Fitness  
Special Populations  
Exercise Prescription  
Exercise Programming Considerations

**COURSE CONTENT – Second Year**
Post-Rehab Orthopedic Exercise  
Therapeutic Flexibility  
Stress Management  
Avoiding Injury Recurrence  
Drug Interaction with Exercise  
Sports Medicine and Health Care  
Achieving Maximum Insurance Reimbursement

**EDUCATIONAL OPPORTUNITIES**
Advanced College Standing  
Associate Degree  
Baccalaureate Degree

**CAREER OPPORTUNITIES**
Certified Personal Trainer  
Sports Team Conditioner  
Exercise Instructor  
Physical Therapy  
Private Health Club  
Strength Coach  
Fitness and Exercise Therapist

**SUGGESTED SUPPORTIVE COURSES**
Health, Living Environment

**ADDITIONAL INFORMATION**

**COSTS**
Workbook, BLS, and CPT certification costs, approved fitness uniform: total $180; $20 field trips

**LENGTH OF COURSE**
1 or 2 years

**LOCATION**
Gary D. Bixhorn Technical Center

**CTE/ACADEMIC CREDIT**
1 year = 1 credit ELA and/or 1 credit math and/or 1 credit science  
2 years = 1 credit ELA and/or 1 credit math and/or 1 credit science  
(2 years = MAXIMUM 2 academic credits)

**INDUSTRY CERTIFICATION**
International Sports Sciences Association (ISSA); Specialist in Exercise Therapy
Employment opportunities for medical assistants are growing fast. Prospects are exceptionally bright for those with formal training and certification. This course encompasses the study of anatomy and physiology, medical terminology, clinical and laboratory procedures, as well as medical law and ethics. A local clinical internship is required in this program and you also have the opportunity to attain the Certified Health Professionals (CHP) and CPR/BLS certifications.

Vital signs are excellent for Medical Assistants!

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: CLINICAL MEDICAL ASSISTING

COURSE DESCRIPTION
This course is designed to provide basic training in medical assisting skills such as: phlebotomy, EKG, medical terminology, first aid and CPR. Successful completion enables students to become additionally certified. Emphasis is placed on preparing students for work in the health care industry. It provides fundamental theories and principles needed by all health care providers in the legal aspects of the industry, as well as professional behavior skills. Safety is emphasized throughout the course.

Students who successfully complete Clinical Medical Assisting and Nurse Assisting courses may be eligible for Patient Care Technician certification.

COURSE CONTENT
Basic Administrative Duties
Medical History Taking
Vital Signs
Medical Terminology
Medical Law and Ethics
Standard Precautions
Anatomy and Physiology
Physical Measurements

Assisting with Exams
Assisting with Minor Surgery
Lab Techniques
Patient Education
Patient Preparations
Collection and Preparation of Lab Specimens
Sterilization Techniques
First Aid/CPR/AED
Phlebotomy
Pharmaceutical Preparation and Administration
Electrocardiogram
Career Development
Professionalism
Clinical and Diagnostic Procedures

EDUCATIONAL OPPORTUNITIES
There are over 80 allied health professions, including Practical Nurse (PN) and Registered Nurse (RN), offered by post-secondary vocational schools, baccalaureate schools, upper division medical schools and community or junior colleges.

CAREER OPPORTUNITIES
Hospital Admissions Departments
Hospital Radiology Departments
Skilled Nursing Facilities
Psychiatric Institutions
Private Medical Offices

Hospital Patient Care Departments
Patient Care Units
Hospital Laboratory Departments
Hospital Medical Records Departments

Drug or Alcohol Rehabilitation Centers
Private Laboratories
Medical Clinics

SUGGESTED SUPPORTIVE COURSES
Algebra, Living Environment

Students enrolling in this program are expected to show proficiency in math and science by scoring a minimum of 75% on the Algebra regents and a minimum of 75% on the Living Environment regents.

ADDITIONAL INFORMATION
COSTS
Materials/uniforms approximately $150; workbook $140;
Physical exam required: CHP exam $140; EKG exam $160;
Phlebotomy exam $160

LENGTH OF COURSE
1 year

LOCATIONS
Edward J. Milliken Technical Center
Harry B. Ward Technical Center
Clinical experience with a local hospital or medical office

CTE/ACADEMIC CREDIT
1 year = 1 credit ELA or 1 credit math or 1 credit science, and
.5 General Ed credit – Health
(1 year = MAXIMUM 1.5 academic credits)

INDUSTRY CERTIFICATIONS
Certification in Phlebotomy, EKG, BLS and/or Clinical Medical Assisting through Certified Health Professionals (CHP)
Jobs in computer science and application development are among the highest paid and most in-demand in today’s economy. Computing drives innovation in science, engineering, business, entertainment, and education. A solid foundation in computer science will provide you with the problem-solving skills and logical thinking that will give you a competitive advantage in your career, whatever field you choose. Mastering the language of computing can provide you with a critical advantage in the job market. Whether you want to be a scientist, technician, or engineer, or want to develop the next “killer app,” here’s your opportunity to step into one of today’s hottest fields.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: COMPUTER SCIENCE AND APPLICATION DEVELOPMENT

COURSE DESCRIPTION
Students will be exposed to a diverse set of computational thinking concepts, fundamentals and tools, allowing them to gain understanding and build confidence and to develop and evaluate computing systems and software. Students use the Java™ computer programming language to design and develop computer software and to implement their designs into practice. The course utilizes industry-standard tools such as Java™ programming language, integrated development environments, XML and MS-Office. Students collaborate to create original solutions to problems and challenges of their own choosing by designing and implementing user interfaces, developing processing logic, and utilizing advanced data structures. Related student experiences include app development, data visualization, cybersecurity and simulation. This program presents a curriculum for preparing students for success on both the College Board CSA AP exam and the Oracle Certified Associate (OCA) Java™ SE Programmer I certification exam.

EDUCATIONAL OPPORTUNITIES
Eligible for the AP CSA examination
Associate Degree
Bachelor’s Degree

REQUIRED COURSE
Students enrolling in this program are expected to show proficiency in math by scoring a minimum of 80% on the Algebra II Regents examination.

SUGGESTED SUPPORTIVE COURSES
Trigonometry, Physics

CAREER OPPORTUNITIES
Data Analyst
Database Administrator
Management Info Systems
Information Technology Specialist

ADDITIONAL INFORMATION
COSTS Additional fees of approximately $300 may be incurred
LENGTH OF COURSE 1 year
LOCATION Gary D. Bixhorn Technical Center
CTE/ACADEMIC CREDIT 1 year = 2 credits, 1 credit ELA and 1 credit math
INDUSTRY CERTIFICATIONS Oracle Java SE Programmer I, AP Computer Science A

Quote from program graduate – “Interesting and informative experience.”
Quote from program graduate – “It was fun and very helpful towards my end goal.”

Manufacturing Technology
- Welding/Metal Fabrication (MTC)
- Computer Science and App Development (BTC)
- Computer Technology and Repair (BTC)
- Introduction to Welding (ICC)
Ongoing developments in the computer industry are generating exciting new job opportunities every day. The proliferation of computer systems in the workplace has created a huge demand for people who can set up, repair, and maintain computers and their technological components. This course offers you the opportunity to achieve A+ certification, preparing you to enter the workforce! Come and explore all that our dynamic Computer Technology and Repair Program has to offer.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: **COMPUTER TECHNOLOGY AND REPAIR**

**COURSE DESCRIPTION**
This combined course is designed to prepare students with practical experiences and related theory leading to an entry-level position as a Computer Repair Technician. Students will learn how to use test equipment and software to troubleshoot and correct common personal computer problems. Students will receive the necessary instruction to prepare for the A+ Certification exam at the completion of Year 1. The A+ Certification is recognized industry-wide and represents six months of work-related experience. This course is also designed to give students core knowledge of information systems, development and project management. Students will also be given the opportunity to take Microsoft Technology Associate (MTA) Certification. This certification will demonstrate the student's fundamental knowledge of hardware, IT infrastructure or software technology. If students return for the second year of the program, they will prepare for the Network+ Certification.

**COURSE CONTENT—Year 1**
- Basic Electricity
- Digital Electronics
- Electronic Circuit Troubleshooting
- Microprocessor Fundamentals
- Computer Hardware
- Hardware/Software Troubleshooting
- Data Communications

**COURSE CONTENT—Year 2**
- Advanced PC Hardware
- Advanced Networking
- Low Voltage
- Local Area Networks
- Routers and Switches

**EDUCATIONAL OPPORTUNITIES**
- Advanced College Standing
- Two-Year Technical College
- Associate Degree or Certificate

**CAREER OPPORTUNITIES**
- Computer Repair Technician
- Bench Tester
- Network Cable Technician
- Technical Representative

**SUGGESTED SUPPORTIVE COURSES**
- Algebra, English, Living Environment

Students enrolling in this program are expected to show proficiency in math and science by scoring a minimum of 75% on the Algebra Regents and a minimum of 75% on the Living Environment Regents.

**ADDITIONAL INFORMATION**
- **COST**: Workbook $75
- **LENGTH OF COURSE**: 1 or 2 years
- **LOCATION**: Gary D. Bixhorn Technical Center
- **CTE/ACADEMIC CREDIT**: 1 year = 1 credit ELA
  - 2 years = 1 credit ELA
  - (2 years = MAXIMUM 1 academic credit)

- First year:
  - Comp TIA® A+; OSHA-10; Test Out
- Second year:
  - Network +; ETA Electronics Technician
Your future is looking good!

ADD STYLE to your career! Enter the dynamic field of cosmetology at The Academy and gain hands-on experience in hairstyling, hair coloring, skin care, make-up, chemical texturizing, and nail technology. Your training will prepare you to take the New York State Cosmetology Examination to become a licensed cosmetologist. You will also learn what it takes to run a successful business!

Advanced college/trade school credit is available to qualifying students from the following institutions:

Eastern Long Island Academy of Applied Technology
COURSE TITLE: **COSMETOLOGY**

COURSE DESCRIPTION
Instruction is provided along with hands-on experience in hair shaping, styling and chemical services, including hair coloring, permanent waving, body waves and chemical relaxing. Encompassed within the curriculum are treatments of the hair and scalp, facials, all aspects of make-up, nail care and artificial nails. The course also teaches the business and science-related aspects of cosmetology and salon management. A cosmetology license qualifies graduates to work with hair, skin and nails, as well as allows specialization in any area of cosmetology. This license will unlock countless doors within the beauty industry. **Students who successfully complete this 1,000 hour course over two years will be eligible to sit for the New York State Board Licensing Exam.**

COURSE CONTENT
- Care of Hair and Scalp
- Hair Cutting Techniques and Shaping
- Hair Styling and Thermal Curling
- Braiding and Hair Extensions
- Chemical Relaxing and Permanent Waving
- Hair Coloring and Hair Lightening
- Wigs, Hair Pieces and Extensions
- Skin Care and Make-Up Application
- Manicuring and Artificial Nails Design
- Pedicure and Paraffin Treatments
- Salon Management and Salon Business
- Related Theory

CAREER OPPORTUNITIES (licensed):
- Natural Hair Stylist
- Chemical Texturing Specialist
- Haircutting Specialist
- Hair Colorist
- Platform Artist
- Salon Manager/Owner
- Esthetician (Skin Care Specialist)
- Make-up Artist/Theatre, TV and Fashion
- Instructor for Professional Products
- Instructor – Private or Public School
- Desaiology
- Nail Technician, Pedicurist
- Certified Microblade Technician
- Eyelash Technician
- Hair Extension Specialist
- Laser Technician
- Permanent Make-Up Artist

CAREER OPPORTUNITIES (not requiring a license):
- Beauty Supply Sales Manager/Sales Clerk
- Receptionist
- Cosmetic Sales
- Social Media Influencer
- Retail Consultant
- Beauty Columnist
- Manufacturer’s Representative
- Beauty Public Relations

SUGGESTED SUPPORTIVE COURSES
- Business, English, Living Environment

ADDITIONAL INFORMATION

Discover a recipe for success!

Learn the secrets of the great chefs! In this course, you’ll gain foundational cooking skills and have the potential to earn ServSafe®, ProStart® and ACF Secondary Graduate professional certifications. Learn what it takes to succeed as a chef for a restauranteur in this exciting, high-profile industry. Get your career cookin’ today in the Culinary Arts/Restaurant Operations Management program.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: **CULINARY ARTS/RESTAURANT OPERATIONS MANAGEMENT**

**COURSE DESCRIPTION**
Our program begins with baking and pastry arts and moves into complete food preparation and management techniques. Students gain an understanding of baking and cake decorating, nutrition, menu planning, catering, dining food service, food production, as well as safety and sanitation codes. Second year students are prepared to take the National Restaurant ServSafe® test. The program has the accreditation of the American Culinary Federation (ACF), which provides students with the opportunity to earn a Certified Fundamentals Cook (CFC). The program is also associated with the New York State Restaurant Association (NYSRA) Educational Foundation ProStart® Program, which provides students with work experience necessary to succeed in the workplace.

**COURSE CONTENT**
- Professional Food Preparation and Service
- Preventative Safety
- Tools and Equipment
- Weights and Measures
- Menu Planning
- Buffets and Banquets
- Food Presentation/Styling
- Time Management
- Table Service
- Customer Service Skills
- Catering
- Ice Carving
- Health Regulations and Codes
- Cooking Methods and Techniques
- Cost Control and Purchasing
- Baking

A wide-open career that's worth smiling about!

Dental chairside assistants prepare patients for treatment, maintain instruments and equipment, work with patients’ dental records and instruct patients on post-operative and general oral health care. Employment in this field is growing, and opportunities are expected to be plentiful. A local clinical internship is required in this program which will start you on your way to a smart new career!

Advanced college/trade school credit is available to qualifying students from the following institution:
COURSE TITLE: **DENTAL CHAIRSIDE ASSISTING**

**COURSE DESCRIPTION**
Students will learn how to work chairside with the dentist, prepare dental materials, perform basic business procedures, prepare clients’ data (i.e., processing insurance forms) and provide practical experience in radiology and four-handed dentistry. Students learn in a simulated environment equipped with the most current equipment and software in a setting where skills are taught with a strong emphasis on patient care and business application. Students gain experience through clinical practice in the field. This program will prepare students for a course of study in higher education for the New York State Dental Assisting Licensing Program.

**COURSE CONTENT**
- Introduction to Dental Assisting
- Pre-Clinical Sciences
- Basic Laboratory Skills
- First Aid and Emergency Treatment
- General Office and Patient Routine
- Basic Dental Sciences
- Instrument Care
- Film Exposure
- Practice Administration
- Personal Health and Grooming
- Chairside Procedures
- Applied Psychology
- Prevention and Control in Dental Health
- Expanded Functions
- Dental Specialties
- Office Management Skills
- X-Ray Processing
- X-Ray Mounting and Digital Technology

**EDUCATIONAL OPPORTUNITIES**
- Certified Dental Assistant
- Dental Lab Technician
- Registered Dental Hygienist

**CAREER OPPORTUNITIES**
- General Dentist
- Orthodontics
- Periodontics
- Prosthodontics
- Private Practice
- Federal, State and Local Agencies
- Dental Supply Company
- Oral Maxillofacial Surgery
- Pediatric Dentistry
- Endodontics
- Dental Insurance Company
- Group Practices
- Armed Forces

**SUGGESTED SUPPORTIVE COURSES**
- Anatomy
- Basic Computer Concepts
- Chemistry, Living Environment

**ADDITIONAL INFORMATION**
- COSTS: Uniforms approximately $70; workbook/other supplies $70; complete physical exam required
- LENGTH OF COURSE: 1 year
- LOCATION: Gary D. Bixhorn Technical Center
- CTE/Academic Credit: 1 year = 1 credit ELA or 1 credit science and .5 General Ed credit—Health
- (1 year = MAXIMUM 1.5 academic credits)
- INDUSTRY CERTIFICATION: BLS

Find big rewards in a small world.

Prepare yourself with the skills you need for a future in teaching. Gain hands-on experience as a student teacher in our on-site preschool. Earn work experience in community-based Early Childhood programs as you work toward your Child Development Associate Credential. College credits are offered through this exciting technical education program.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: **EARLY CHILDHOOD EDUCATION**

**COURSE DESCRIPTION**
This course is designed to prepare students for careers as teachers or child care providers in early childhood education. The study of child development is included by direct hands-on work experience with children in our on-site preschool. A second year option is available which prepares students to work toward the Child Development Associate (CDA), a nationally recognized credential that will qualify candidates to meet all state licensing requirements to work as a child care professional in any early childhood program in the United States. Students in the second year program participate in community-based internships to explore varied educational settings and student groups.

**COURSE CONTENT – Year 1**
Career Planning and Preparation
Observation and Assessment
Child Development Principles and Theories
Understanding Children from ages 2–5
Guidance Techniques
Creating a Safe and Healthy Environment
Curriculum Planning
Learning Experiences for Children
Guiding Children with Special Needs

**COURSE CONTENT – Year 2**
Community-Based Work Experience
Classroom Management and Supervision
Program Management
Parent/Teacher/Community Relations
First Aid/Pediatric CPR Certification
CDA Credential Preparation

**CLINICAL LAB PRACTICE – Year 1**
Students participate as teachers-in-training in an on-site preschool laboratory, working with children 3 to 5 years old. Students work in teaching teams with a rotation of job assignments and positions.

**CLINICAL LAB PRACTICE – Year 2**
Students serve in the lead teacher role in the on-site preschool laboratory, as well as participating in community-based field placements in their choice of settings including infant/toddler or preschool, daycare, Head Start and special education preschool.

**EDUCATIONAL OPPORTUNITIES**
Associate Degree
Baccalaureate Degree

**CAREER OPPORTUNITIES**
Nursery Schools
Recreation Facilities
Elementary Schools
Group Day Care Centers
Special Education Facilities
Family Home Day Care Provider
Community Service Agencies
Youth Centers

**SUGGESTED SUPPORTIVE COURSES**
Human Development, Food and Nutrition, Parenting, and Child Psychology

**ADDITIONAL INFORMATION**

**COSTS**
First year:
Smock $25; portfolio box $15; notebook $5; misc. craft supplies $5; Pediatric CPR/AED and First Aid certification $25 (CPR certification valid for two years)

Second year:
Pediatric CPR/AED and First Aid certification $25; CDA book $30 (CDA book includes application packet/shipping and handling); CDA certification $425 (optional)

**LENGTH OF COURSE**
1 or 2 years

**LOCATIONS**
Edward J. Milliken Technical Center
Harry B. Ward Technical Center

**CTE/ACADEMIC CREDIT**
1 year = 1 credit ELA
2 years = 1 credit ELA
(2 years = MAXIMUM 1 academic credit)

**INDUSTRY CERTIFICATION**
Child Development Associate (CDA)
Pediatric CPR/AED and First Aid
ELECTRICAL TRADE AND
ALTERNATIVE ENERGY

It’s an electrified world! From homes to sports stadiums to skyscrapers, we all depend on electricians to build and maintain the power systems that make modern life possible. This fast-paced program covers construction-based electrical concepts plus the newest means of generating energy including solar, wind, and geothermal technologies. So “get current” with the leading-edge skills to succeed in this evolving and well paying field!

More power to you!

Advanced college/trade school credit is available to qualifying students from the following institutions:

EASTERN LONG ISLAND ACADEMY OF APPLIED TECHNOLOGY
COURSE TITLE: **ELECTRICAL TRADE AND ALTERNATIVE ENERGY**

**COURSE DESCRIPTION**
This two-year program is a combination of hands-on skill development and technical training in order to prepare students for entry level employment or higher in the electrical trade. Students gain practice in traditional wiring methods and blueprint reading, as well as learn the latest renewable energy concepts including solar, wind, and geothermal technologies.

Students will take the OSHA-10 course in their first year of study with the goal of obtaining the OSHA-10 card. Second-year students will take the OSHA-30 course as well.

**COURSE CONTENT**
- Series and Parallel Circuits
- Ohm’s Law/Power Law
- Electrical Codes
- Alternating Current Theory
- Trade Related Technical Math
- Residential/Commercial Wiring Methods
- Residential Service Installations
- Basic Troubleshooting Techniques
- Basic Electrical Measurements
- Raceways
- Motor Control Wiring
- Alternative Energy Sources

*Quote from program graduate – “Awesome experience in my life with a lot of learning.”*
Here’s your chance to get an insider’s view of the fashion industry, from designing and creating your own clothes to buying and promoting fashion related products. Learn how to forecast fashion trends and find out what it takes to be a successful designer, buyer, visual merchandiser, or stylist. Visit the heart of Manhattan’s garment district and explore the many different “fashion avenues” that this exciting field has to offer!
COURSE TITLE: FASHION MERCHANDISING AND DESIGN

COURSE DESCRIPTION
This course provides skills and experience in retail operations, merchandising display and apparel design. Students cut, sew and design their own garments, demonstrate the forecasting of fashion, visually create a fashion display, illustrate sample garments for their portfolio, perform basic business procedures needed for any retail operation, and work cooperatively as a team member to run a successful retail store.

COURSE CONTENT

APPAREL DESIGN
Design Theory: Design Principles, Fashion History, Forecast Analysis, Figure Study, Illustration, Rendering/Presentation, Design
Individual Projects: Three or More Original Designs (casual, day wear, evening)
Fashion Production: Spring Fashion Showcase of Student Project Designs and Local Retailer/Boutique Selections

RETAIL OPERATIONS
Retail Store Organization: Merchandising, Finance and Control, Operations and Promotional Division Responsibilities
Customer Service: Profile/Market Segmentation, Merchandising Objectives, Service Policies, Sales Strategies, Inventory, Receipts Control
Spare Change: In-House Retail Boutique Providing Practical Exploration of Fashion Merchandising Curriculum

VISUAL MERCHANDISING
Display Design: Traffic Analysis, Market Impact, Calendar/Season, Theme, Composition, Floor Plans and Spec Rendering
Display Techniques: Realistic, European and Exaggerated (lay-down, pin-up, and flying)
Display Fixtures: Free Standing, Shadow Box, T-Walls, Structural Columns, Fascia, Display Counters, Platform, Shell Form, Risers and Build-ups
Planning: Schedule, Physical Requirements, Tools and Supplies, Lighting Equipment and Reference Materials

EDUCATIONAL OPPORTUNITIES
Advanced College Standing
Associate Degree in Marketing, Retail Business Management
Baccalaureate Degree

CAREER OPPORTUNITIES
Sales Associate
Management Trainee
Publicity Assistant
Fashion Coordinator
Display Designer
Fashion Designer
Pattern Maker
Visual Merchandiser
Buyer
Seamstress
Fashion Stylist
Fashion Teacher

ADDITIONAL INFORMATION
Costs: Approximately $120 for supplies and materials
Length of Course: 1 or 2 years
Location: Gary D. Bixhorn Technical Center
CTE/Academic Credit: 1 year = 1 credit ELA and 1 credit General Ed – Art
2 years = 1 credit ELA and 1 credit General Ed – Art
(2 years = Maximum 2 academic credits)

Quote from program graduate –
"I learned more about, and feel more confident in, my career choice."

Quote from program graduate –
"Challenging but career oriented."

Arts, A/V Technology and Communications
- Art, Design and Visual Communications (BTC)
- Audio Production (MTC, WTC)
- Professional Photography (BTC)
- Television Production (BTC)
- Computer Graphic Arts Technology (ICC)
- Digital Media Production (ICC)
- Fashion Merchandising and Design (BTC)
Businesses, industries and homes all use the services of HVAC technicians. Train for any one of 17 career paths including cooling and heating, control systems and more. You will have an opportunity to earn national licensing and certification in refrigerant handling from the EPA as well as gas and oil heat servicing certifications from NATE and NORA. Students who qualify may participate in factory-sponsored training by a major HVAC local supplier. Qualifying students may also receive reduced tuition rates and 300 hours of training at a local college.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: **HEATING, VENTILATION AND AIR CONDITIONING (HVAC)**

**COURSE DESCRIPTION**
Our program includes the installation, service and repair of air conditioning, cooling, heat pump systems and electrical theory and service. An integral part of this program involves green technologies including geothermal and solar hot water heating, indoor air quality and HEPA filtration, as well as air sealing techniques. Students are prepared to take the EPA Certification Test for the handling of refrigerants.

Students will take the OSHA-10 course in their first year of study with the goal of obtaining the OSHA-10 card. Second-year students will take the OSHA-30 course as well.

**COURSE CONTENT**
- Residential Air Conditioning
- Marketing
- Cooling and Heat Pump Systems
- Controls, Circuits and Instruments
- Efficiency Rating
- Commercial Refrigeration
- Ice Machines
- Air Conditioning Systems
- Electrical Theory
- Indoor Air Quality
- Freezers and Freezing Systems
- Service Procedures and Troubleshooting
- Air and Duct Sealing
- Alternative Energy
- Energy Efficiency

**EDUCATIONAL OPPORTUNITIES**
- Advanced College Standing
- Two Year Technical College
- Associate Degree or Certificate

**CAREER OPPORTUNITIES**
- Service Technician
- Service Manager
- Installer’s Helper
- Parts Manager
- Small Business Owner/Operator
- Air Quality Control Specialist
- Heating and Air Conditioning Mechanic/Installer
- Manufacturer’s Representative
- Salesperson
- Labor Union Apprentice

**SUGGESTED SUPPORTIVE COURSES**

  - National Oil Heat Research Alliance (NORA), North American Technical Excellence (NATE®), OSHA-10, OSHA-30

*Quote from program graduate –*
“I learned a trade that could help me secure a well-paying job in the future.”
A career in Law Enforcement is a great investment in job security.

Law enforcement offers expanding opportunities from high tech to criminal justice. In this program, you will test your skills while discovering where your interests lie. Explore the procedures police utilize when making arrests, how the criminal justice system works, and how to collect crime scene evidence. Earn the opportunity to participate in a one-week course at the Suffolk County Police Academy and experience life as a police recruit. Eligible students may attain New York State Security Guard certification.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: LAW ENFORCEMENT

COURSE DESCRIPTION
This is a broad-based program for students with an interest in criminal justice, law enforcement, public safety and other related legal careers. The program includes the study of civil and criminal law, providing a strong foundation for entry into the security field or for advanced training at a police academy or college. As a New York State Approved Security Guard school, students who qualify are provided an opportunity to pass the Security Guard certification exam, as well as the International Federation of Protection Officers (IFPO) exam. Students will also receive national telecommunicator (911) training. The IFPO certification is nationally recognized and is offered in the second year of the program, which also includes forensics and crime scene investigations.

COURSE CONTENT – First Year
- Introduction to Criminal Justice
- Introduction to Law
- Introduction to Corrections
- Government Structure
- Physical Security Systems
- Patrol Techniques
- Code of Conduct/Ethics
- Emergency Planning
- Community/Public Relations
- Juvenile Justice System
- Personal Protective Equipment
- Weapons Safety

COURSE CONTENT – Second Year
- Court Systems
- Risk Management Principles
- Crime Scene Procedures
- Investigative Techniques
- Defensive Tactics
- Substance Abuse
- Homeland Security
- 911 Emergency Systems
- Forensics
- Internship
- Cyber Security

EDUCATIONAL OPPORTUNITIES
- Associate Degree
- Baccalaureate Degree
- Police Academy

CAREER OPPORTUNITIES
- Police Science
- Police Officer
- Police Dispatcher
- Paralegal/Pre-Law
- Sheriff’s Department
- Probation/Parole
- Child Protective Services
- Corrections
- Forensic Science
- Court System
- Security Officer
- Fire Services
- Corporate Security
- Executive Protection
- Emergency Complaint Operator
- Public Safety Dispatcher
- Military/Military Police
- Federal Law Enforcement

ADDITIONAL INFORMATION
- LENGTH OF COURSE: 1 or 2 years
- LOCATIONS: Edward J. Milliken Technical Center, Gary D. Bixhorn Technical Center, Harry B. Ward Technical Center
- CTE/ACADEMIC CREDIT: 1 year = 1 credit ELA, and 1 credit science, and .5 General Ed credit – Government
- 2 years = 1 credit ELA, 1 credit science, and .5 General Ed credit – Government
- (2 years = MAXIMUM 2.5 academic credits)
- INDUSTRY CERTIFICATIONS: International Federation of Protection Officers (IFPO)
- NYS Security Guard
- BLS

Quote from program graduate –
"The Academy opened up a lot of opportunities for me and made me more confident in what I want to do after high school."
Do boats, quads or motorcycles rev your engine? Consider becoming a marine or motorsports technician. In this booming field, technicians are needed in specialty shops, repair facilities, marinas and dealerships. Engine and vehicle systems theory, vehicle maintenance, performance modifications, as well as factory-supported training through Yamaha Motor Corporation are featured in this course. Dyno tune your motorcycle, quad or boat engine for maximum performance and beat the competition!

Advanced college/trade school credit is available to qualifying students from the following institutions:

EASTERN LONG ISLAND ACADEMY OF APPLIED TECHNOLOGY
COURSE TITLE: MARINE/MOTORSPORTS TECHNOLOGY

COURSE DESCRIPTION
Instruction will introduce and reinforce core knowledge in engine systems, drive systems, electrical and electronics systems, fuel systems, fabrication and engine machining. Students will learn how things are built, how they work and how to approach a repair. Students will have the opportunity to utilize our engine dynamometers to reinforce theory and prove performance modifications. Graduates will leave with the knowledge required to enter a broad array of the motorsports trades, including automotive, marine, motorcycle and heavy equipment. Take advantage of our highly successful work study program and gain hands-on industry experience with senior technicians while you’re still in high school.

COURSE CONTENT
Gasoline Engine Theory
Troubleshooting
Fuel Systems
Ignition Systems
Lubrication Systems
Charging Systems
Valve Train Systems
Fabrication
Shop Procedures
Shrink Wrapping

Diesel Engine Theory
Cylinder Boring and Honing
Fuel Injection
Cooling Systems
Electrical Systems
Starting Systems
Drive Systems
Welding/Machining
Equipment Maintenance
Winterization Procedures

CAREER OPPORTUNITIES
Marine Technician
Motorcycle Technician
ATV Technician
Machine Shop Assistant

Power Equipment Technician
Fabricator
Welder’s Assistant

INDUSTRY SUPPORT
Yamaha Motor Corporation
Association of Marine Industries
New York Marine Trades Association

EDUCATIONAL OPPORTUNITIES
Continuing Yamaha Module Training toward Master Technician
Advanced College Standing
Two-Year Technical College
Associate Degree
Graduates can immediately enroll in Yamaha Marine Service
Skills Training

SUGGESTED SUPPORTIVE COURSES
Algebra

Nurse Assisting: be part of a healthy outlook!

Healthcare is the single largest growth industry in the nation. The need for kind, caring and compassionate individuals throughout the industry is enormous. Take your first step toward attaining New York State Nurse Aide certification while learning about the many opportunities available. Right now there are many very healthy reasons to choose a career in nurse assisting.

Advanced college/trade school credit is available to qualifying students from the following institution:
COURSE TITLE: **NURSE ASSISTING**

**COURSE DESCRIPTION**
This course is designed to prepare the student to be employed as a Nurse Assistant. Basic aspects of health care include procedures used in the care of patients such as: bathing, positioning, moving, transferring and monitoring vital signs. A hands-on approach with a laboratory component as well as practical applications of theory are emphasized. Clinical affiliations with various health care institutions further enhance this approach. This course is an entry level program in the field of nursing. This course prepares students for New York State Nurse Aide Certification. Students who successfully complete Nurse Assisting and Clinical Medical Assisting courses may be eligible for Patient Care Technician certification.

**COURSE CONTENT**
- Nutrition
- Basic Nursing Procedures
- Personal Health and Wellness
- Communication Skills
- Anatomy and Physiology
- Computer Applications
- Geriatric Care
- Promotion of Safety
- Vital Signs
- Medical Terminology
- Legal and Ethical Responsibilities
- Emergency Care
- Human Growth and Development
- Infection Control
- Health Care Systems
- Careers in Health
- Preparing for the World of Work
- Qualities of the Health Care Worker

**EDUCATIONAL OPPORTUNITIES**
- Practical Nurse (PN):
- Registered Nurse (RN):
- Associate and Baccalaureate Degrees
- Masters Degree

**CAREER OPPORTUNITIES**
- Nurse Assistant:
- Rehabilitation Aide:
- Recreation Assistant:
- Skilled Nursing Facilities:
- Home Care
- Hospice
- Hospital
- Sub-Acute Care

**SUGGESTED SUPPORTIVE COURSES**
- Algebra, Living Environment, Math

Students enrolling in this program are expected to show proficiency in math and science by scoring a minimum of 75% on the Algebra Regents and a minimum of 75% on the Living Environment Regents.

**ADDITIONAL INFORMATION**
- COSTS: Uniforms $70; workbook $35; complete physical examination required; New York State Nurse Aide certification testing fee $115, payable to New York State Commissioner of Health
- LENGTH OF COURSE: 1 year
- LOCATIONS: Edward J. Milliken Technical Center, Harry B. Ward Technical Center
- CTE/ACADEMIC CREDIT: 1 year = 1 credit ELA or 1 credit math or 1 credit science and .5 General Ed credit – Health (1 year = MAXIMUM 1.5 academic credits)
- INDUSTRY CERTIFICATION: New York State Nurse Aide, BLS, AED

"The time you spend here, you will learn a lot, and it will help you with your career."
Physical therapy aides are responsible for assisting the Physical Therapist with a variety of tasks. Physical therapists work with patients to optimize mobility and help prevent and treat injuries and disabilities. A Physical Therapy Aide is responsible for ensuring that a patient’s visit with the therapist is productive and runs smoothly. Physical Therapy Aides are part of a growth industry with a robust job outlook over the next decade.

A healthy industry you can count on.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: PHYSICAL THERAPY AIDE

COURSE DESCRIPTION
Physical therapy is a growing part of the medical industry. Physical Therapy Aides are a crucial part of the rehabilitation team. They assist Physical Therapists in delivering quality care to patients. Responsibilities of the Physical Therapy Aide include transporting patients from one therapy area to another, preparing and organizing the location for the patient's session, setting up any needed equipment, assisting with the patient's evaluation for treatment session, and fulfilling office and clerical duties. Students will learn theoretical concepts, practice skills and experience first-hand therapeutic intervention for patients in a clinical setting.

COURSE CONTENT
How to Treat Diverse Populations
Anatomy and Physiology
Medical Terminology
Vital Signs
Range-of-Motion Exercises
Use of Canes, Crutches, Walkers, and other Assistive Devices
Stair Training
Hot Packs/Ice, Electrical Stimulation, Ultrasound and Kinesiotaping
Strengthening Exercises
Whirlpool Therapy–Use of Mechanical Lift
Fitness, Nutrition and Weight Control
Office Duties
Sport-Specific Therapy to Return-to-Play

EDUCATIONAL OPPORTUNITIES
Associate Degree
Baccalaureate Degree
Masters Degree
Doctorate of Physical Therapy

CAREER OPPORTUNITIES
Hospitals
Physical Therapy Offices
Schools for Children with Special Needs
Home Health Care Agencies
Nursing Homes
Assisted Living Facilities

SUGGESTED SUPPORTIVE COURSES
Living Environment, Physics

ADDITIONAL INFORMATION
COSTS ............................................. Uniform $130; small fees for certifications in BLS, First Aid, AED, and blood borne pathogens may apply; complete physical exam required
LENGTH OF COURSE .......................... 1 year
LOCATION ................................. Gary D. Bixhorn Technical Center
CTE/ACADEMIC CREDIT ....................... 1 year = 1 credit ELA and 1 credit Science and .5 General Ed credit–Health
INDUSTRY CERTIFICATION ................. BLS, AED

Quote from program graduate –
“Being in this program has made me confirm within myself that I want to pursue physical therapy.”
Plumbers, pipefitters, and steamfitters constitute one of the largest groups among the construction occupations. Approximately 55% work for independent contractors while others perform maintenance work for industrial, commercial, and government employers or are self-employed. Job opportunities are expected to be very good, especially for workers with welding experience, and salaries in this profession are among the highest in the construction trades. Students completing this program will earn a NYCOSH certificate of completion and may qualify to attain the NORA Bronze Certified Oilheat Technician credential upon successful completion of the exam.

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: PLUMBING AND HEATING

COURSE DESCRIPTION
This program is designed for students interested in installing, servicing and repairing of domestic sanitation systems, water heaters and home heating units. Students will also receive training on the latest trade-related green technology, as well as efficient appliances, retrofitting to increase water efficiency, and resource conservation.

Students will take the OSHA-10 course in their first year of study with the goal of obtaining the OSHA-10 card. Second-year students will take the OSHA-30 course as well.

COURSE CONTENT
Installation of boilers, tanks, burners, water heaters and controls, hot water and steam
Servicing of burners, controls and heating systems
Retrofitting with energy saving devices
Efficiency testing and adjusting of heating systems
Basic plumbing applications
Planning work and developing material lists from sketches or building plans, isometric drawings and orthographic views
Study of local and national plumbing codes and sanitary requirements

Cutting, bending, threading and joining pipes according to specification
Soldering, solvent welding of PVC and ABS plastic drainage piping, cast iron soil pipe, yarning and caulking no hub cast iron
Hydrostatic testing of assembled systems
Fixtures for domestic and commercial establishments
Math applied to plumbing and heating (trade math)
Installation of plumbing fixtures, drains, waste and vent lines

EDUCATIONAL OPPORTUNITIES
Advanced College Standing
Associate Degree or Certificate

Baccalaureate Degree
Two-Year Technical College

CAREER OPPORTUNITIES
Master Plumber
Manufacturer Representative
Industrial Maintenance Mechanic
Utility Installer
Water Conservationist
Plumbing Supply Clerk

Geothermal Technician
Water Technician
Water Resource Specialist
Plumber’s Apprentice
Pipe Fitter/Steam Fitter
Oil Burner Technician

SUGGESTED SUPPORTIVE COURSES
Algebra, Electricity, Technology

ADDITIONAL INFORMATION
COSTS...........................................Work clothes $25; tools/equipment $200; safety shoes $50

LENGTH OF COURSE.......................2 years

LOCATION ..............................Gary D. Bixhorn Technical Center

CTE/ACADEMIC CREDIT
1 year = no academic credit
2 years = 1 credit ELA, 1 credit math, and 1 credit science
(2 years = MAXIMUM 3 academic credits)

INDUSTRY CERTIFICATIONS..............National Registry, National Oil Heat Research Alliance (NORA)
North American Technical Excellence (NATE®), OSHA-10, OSHA-30

Quote from program graduate –
“Very interesting...best school experience.”
When Caring is your Calling...

...your helping hands will find a world of opportunity.

With people living longer and a “boomer” population that has come to expect high quality healthcare, nursing is one of the future’s most secure occupations. Besides a healthy job market, practical nurses enjoy personal rewards and a sense of self esteem. As a nurse, you will be responsible for the well-being of patients, teaching them how to achieve and maintain better health and brighter, more satisfying futures. In short, you will enhance the quality of human life. Secure career opportunities await you in hospitals and clinics, outpatient care centers, doctors’ offices, nursing facilities and in private home care.

Your helping hands will be doubly rewarded with the satisfaction of helping others coupled with the security of a promising future with unlimited opportunity!

Advanced college/trade school credit is available to qualifying students from the following institutions:

Adelphi University
Nassau Community College

EASTERN LONG ISLAND ACADEMY OF APPLIED TECHNOLOGY
COURSE TITLE: **PRACTICAL NURSING**

*All applicants must take and pass the nurse entrance exam: Test of Essential Academic Skills (TEAS) in the Spring of their junior year.*

**COURSE DESCRIPTION**
This is a 17-month program (Level 1 and Level 2) that begins in the student’s senior year. During the first year of the program, Level 1 students learn theoretical nursing concepts and basic nursing skills built on the principles of biological, physical and social sciences. Level 1 provides classroom, laboratory and clinical experiences with an emphasis on safe care of the adult client at a health-related facility. Level 2 of the program, beginning in September following high school graduation, is designed to build upon previous nursing knowledge and related theory with a focus on evidence-informed nursing practices using critical thinking and the nursing process. Level 2 classes are held at the Adult Education Center in Brentwood and health-related facilities Monday through Friday 8:00 AM to 2:30 PM. Upon successful completion of 1,260 hours of instruction and program requirements, graduates are eligible to take the National Council Licensing Examination for Practical Nurses (NCLEX-PN).

**COURSE CONTENT Level 1 – First Year**
Fundamentals of Nursing – With Clinical Practice
Nutrition
Pharmacology
Growth and Development
Anatomy and Physiology
Introduction to Professional Nursing and Ethics

**COURSE CONTENT Level 2 – Second Year**
Clinical Practice and Theory:
Medical-Surgical Nursing
Psychiatric Nursing
Obstetrical Nursing
Gerontological Nursing
Pediatric Nursing

**EDUCATIONAL OPPORTUNITIES**
Advanced College Placement Available
Associate and Baccalaureate Degrees

**CAREER OPPORTUNITIES**
Hospitals/Hospices
Public Health Agencies
Physician’s Offices and Clinics
HMO
Travel Nursing
Nursing Homes
Private Homes
Armed Forces
Community-Based Care Centers
Skilled Nursing Facilities

**SUGGESTED SUPPORTIVE COURSES**
Algebra, Regents English, Living Environment, Nurse Assisting in 11th grade, or Clinical Medical Assisting in 11th grade. Students enrolling in this program are expected to show proficiency in math and science by scoring a minimum of 80% on the Algebra Regents and a minimum of 80% on the Living Environment Regents.

**ADDITIONAL INFORMATION**

CTE/ACADEMIC CREDIT .......... 1 year = 1 credit ELA and 1 credit science and .5 General Ed credit – Health (1 year = MAXIMUM 2.5 academic credits)

Upon completion of the second year, students are eligible to take the National Council Licensing Examination for Practical Nurses (NCLEX-PN). Tuition for Level 1 is paid by the local school district enrolling the student with the usual Academy aid. Tuition for Level 2 will be the responsibility of the student and/or parent. Level 2 students are eligible for Federal Student Loans and possible Pell Grants. Note: Students must maintain a 75% grade average per subject listed in the course content and maintain satisfactory attendance.

*All students will be subject to random drug testing.*

*Information to be provided.
**Please note: students/parents are responsible for costs of uniforms, books, supplies, and current physical exam as listed above.
Here's your chance work in a creative studio setting while gaining valuable experience interacting with real clients. Experience the satisfaction of building a professional portfolio while completing your course requirements. Explore theory and concepts while learning how to use today’s software to fine tune and present your best work! Advanced standing of up to 9 college credits are available from participating colleges to students who qualify. Picture yourself in an exciting future as you take the first step toward becoming a professional photographer!

Advanced college/trade school credit is available to qualifying students from the following institutions:

- EASTERN LONG ISLAND ACADEMY OF APPLIED TECHNOLOGY
- PROFESSIONAL PHOTOGRAPHY
- DIGITAL IMAGING
**COURSE TITLE:** PROFESSIONAL PHOTOGRAPHY AND DIGITAL IMAGING

**COURSE DESCRIPTION**
This course will focus on cultivating students’ styles, techniques, personal aesthetics, and personal growth using photographic imaging by enabling students to become critical thinkers using photography as a means of inquiry. Students will gain an understanding of photography from historical to recent criticism and understand its social implications. Both fine art photography and commercial photography (business side of photography industry) will be covered, with a strong emphasis placed on studio lighting, location lighting, black and white darkroom and developing, and digital imagery.

Analog photography will serve as the foundation for understanding the photographic process, film cameras, and darkroom printing before moving to digital photography using a Macintosh platform and Adobe Photoshop® and Lightroom software. Problem solving, originality, and collaboration will be an integral part of in-class exercises, reading, assignments, presentations, critiques and independent projects.

**COURSE CONTENT**
- **Camera Techniques:** Medium format film cameras and digital cameras
- **Lighting Techniques:** The study of natural light, bounce, flash and portable lighting as well as studio lighting
- **Darkroom and Developing:** How to process and make a print from film
- **Computer Software:** Exposure to Adobe Photoshop® and Lightroom software, and processing digital imagery including scanning and retouching negatives into a final print image product
- **Portfolio Development:** A student portfolio exemplifying the process of photography, from inception to completion, will be developed into a book layout that can be used for employment

**EDUCATIONAL OPPORTUNITIES**
- Associate Degree
- Baccalaureate Degree

**CAREER OPPORTUNITIES**
- Studio or Photographer’s Assistant
- News Photographer
- Portrait Photographer
- Photo Editor
- Photo Stylist
- Product Stylist
- Photo Equipment
- Advertising Photographer
- Industrial Photographer
- Fashion Photographer
- Wedding Photographer
- Fashion Stylist
- Photo Lab Technician
- Sales Representative

**SUGGESTED SUPPORTIVE COURSES**

“...It was fun and I learned a lot of what I was interested in.”

**Quote from program graduate –**
“The time spent here allowed me to actually work on my craft.”
Be part of a growth industry with evolving technology and varied job opportunities. You will work both in front of and behind the camera, in studio and on location. This course emphasizes hands-on training, preparing you for the many career paths available in this field. Your creativity will soar as you work with professional cameras, lighting, and audio equipment and learn computer-based editing in a full studio setting. From commercials to music videos, and from TV journalism to short films, you can produce it all!

Advanced college/trade school credit is available to qualifying students from the following institutions:
COURSE TITLE: TELEVISION, VIDEO AND DIGITAL FILM PRODUCTION

COURSE DESCRIPTION
This course involves all phases of television and film production including planning, shooting and editing. Students will learn techniques in studio production, electronic journalism and digital filmmaking. Working in our 30’ x 40’ studio, students produce network-style talk and news shows and promotional videos. In addition to working in the studio, students use professional cinema and field cameras, as well as sound and lighting equipment to create their own news packages, public service announcements, short films and documentaries. Students learn current industry practices through hands-on experience, including direct work for real-world clients, which prepares them for an entry level position and/or post-secondary education in the field.

COURSE CONTENT
Multi-Camera Studio Directing
Video Switcher Operation
Master Control
Camera Operation/Picture Composition
Field and Studio Lighting
Audio Console Operation
Microphone Use
Communication Law

Directing Talent
Non-Linear Editing
3-D Animation

Welders work in the manufacture of fabricated metal products, transportation equipment, machinery, and architectural and structural metals. Welders can also be found in automotive restoration and in custom motorcycle work. Experienced welders can advance to positions as technicians, supervisors, inspectors and instructors, or may open their own repair shops. Others, especially those who obtain a bachelor’s degree, may become welding engineers. Employment prospects are bright! Here’s your opportunity to obtain the entry-level skills you need to begin a career in welding.

Find your bright spot in heavy metal!
COURSE TITLE: WELDING/METAL FABRICATION

COURSE DESCRIPTION
Entry level skills in electric ARC, TIG, MIG and Plasma ARC welding techniques are introduced. These techniques are developed in areas from heavy ferrous material to highly specialized light metals common to Long Island industry. Welding, according to specifications and blueprints, is emphasized. Students will take the OSHA-10 course in their first year of study with the goal of obtaining the OSHA-10 card. Second-year students will take the OSHA-30 course as well.

COURSE CONTENT
Aircraft and Industrial Welding
MIG and TIG (Heli-ARC) Theory and Practice
Thin Gauge Metal, Aircraft and Sheet Metal Fabrication
Brazing Light-Gauge Sheet Metal
Sheet Metal Fabrication
Blueprint Reading, Layout and Measurement
Plasma Arc Cutting and Resistance Spot-Welding
ARC Welding in Sheet and Plate Fabrication

Structural Steel and Construction Welding
Oxyacetylene Welding and Brazing (Maintenance Welding Techniques)
Shielded Metal ARC Welding (Stick Electrode) using AC and DC Welding Machines (Construction Welding, Equipment Repair)
Pipe Welding
MIG and TIG Welding (Heavy-Gauge Steel Construction Application)
Manual and Semi-Automatic Flame Cutting
Layout Work and Welding to Measurement, Job Design
Plasma Cutting Techniques

EDUCATIONAL OPPORTUNITIES
Advanced College Standing
Associate Degree
Trade Schools

CAREER OPPORTUNITIES
Machine Building Railroad and Transportation
Aircraft Welder Precision and Commercial Sheet Metal
Construction Welder Welding Technician
Pipeline Welder Welding Inspector
Ship Building Welding Proprietor
Heavy Equipment Repair

SUGGESTED SUPPORTIVE COURSES
Algebra, Mechanical Drawing, Metal Shop

ADDITIONAL INFORMATION
COSTS ............................................ Approved footwear and clothing $300
LENGTH OF COURSE ......................... 1 or 2 years
LOCATION ................................. Edward J. Milliken Technical Center
CTE/ACADEMIC CREDIT ................. 1 year = 1 credit ELA
.............................................. 2 years = 1 credit ELA
.............................................. (2 years = MAXIMUM 1 academic credit)
INDUSTRY CERTIFICATION ............... OSHA-10, OSHA-30

Quote from program graduate –
"Very engaging and educational. Gives me the experience I expect to see in the trade field I am studying."
Co-op, Internship, Job Shadow

Through dynamic school/business partnerships, carefully designed and supervised work-based learning experiences assist students in honing technical proficiencies and polish professional skills, giving them the essential edge to successfully compete in today’s global and local workplace market.
WORK-BASED LEARNING

Students at The Academy can select from a wide array of school-to-career activities. Approved internships, job shadowing, apprenticeship preparation, clinical work experience and cooperative work experience provide students the opportunity to excel in their field of study.

CAREER COUNSELING services are provided through individual and group counseling that includes career decision-making, employability skills and personal adjustment. Communication with parents and district guidance counselors is also maintained. Additional guidance support services are provided to students with disabilities that have been mainstreamed into a program at The Academy.

COOPERATIVE WORK EXPERIENCE combines career and technical classroom study with paid productive work in a field related to the students’ academic and career goals. Cooperative work experience enhances a student’s technical, interpersonal and decision-making skills through a carefully designed and supervised training plan. Through a dynamic school-business partnership, cooperative work experience helps students develop the professional skills necessary to compete in today’s challenging workplace. It is also sometimes referred to as work study.

JOB SHADOWING is a structured, unpaid work-based learning experience which allows students to shadow an employee during a specific event/activity in order to gain a greater awareness of the scope of the job.

INTERNSHIPS are structured, unpaid work-based learning experiences which allow students to intern for a limited period of time. Interning affords the student the opportunity to concurrently explore a career field, develop skills and network with professionals in the industry.

APPRENTICESHIPS are highly structured training programs, usually sponsored by labor organizations or private industry. Many courses prepare students who are interested in pursuing a certified apprenticeship after graduation. Some apprenticeship programs offer advanced standing.

SERVICE LEARNING usually refers to community-based volunteer projects conducted in collaboration with local agencies or non-profit organizations.

CUSTOMER SERVICE provides a simulated work environment within the school setting and involves “live work”.

CAREER-RELATED PARTNERSHIP ACTIVITIES involve a collaborative relationship with a business/industry partner to provide students with work related experiences through mentoring, Junior Achievement and similar experiences.

WORKPLACE MENTOR is designated as the advocate for a particular student and who works in consultation with classroom teachers, counselors, related service personnel, and the employer of the student to design and monitor the progress of the school-to-work activities of the student.

SCHOOL-TO-CAREER TRANSITION services are available to all students who require assistance to successfully bridge the transition from school to the world of work. The content includes such areas as finding employment, filling out job applications, completing resumes, interviewing skills, appropriate work related attitudes and internship opportunities.
“I am CTE ... ask me why I'm here.”

Quote from program graduate –
“When I walked into the classroom, I just felt like I belonged here. I felt like this is where I am supposed to be.”

Kellcia Yap
Student, Chairside Dental Assisting, Patchogue-Medford UFSD

Quote from program graduate –
“To be in a classroom with other people who know what I’m actually talking about is really fulfilling.”

Joseph Mallimo
Student, Auto Body, Connetquot CSD

Quote from program graduate –
“The classes are really in-depth. Both of my instructors helped us with college and applying for scholarships and discussed other options as well.”

Hunter Levine
Student, Culinary Arts, Sachem CSD
Eastern Suffolk BOCES Board and Administration
